MANUSCRIPT TITLES

Title should be brief and precise, technical enough to explain the content it holds in the manuscript. It is usually free from acronyms, abbreviations or punctuations.

AUTHOR(S)

Author names need to be mentioned as Last name followed by their Initials without space or any punctuation. In case where more than one author is present they should be differentiated by colon the conjunction ‘and’ with the last author. Their affiliations are numbered after the initials in superscript. Corresponding author is represented with a superscript star.

ABSTRACT

The word limit for Abstract is 300 or fewer words. Abstract must summarize specifically the scientific content in the manuscript. Abstracts are short and accurate. Abstracts must be free from citations.

KEYWORDS
Keywords serve as main tool for Indexers as well as Readers to locate your manuscript. Keywords enhance the chances of getting more citations and high readership to your manuscript. An article should contain about of 3-7 Keywords.

E.g: Biosafety; Bioterrorism; Infectious Diseases.

ABBREVIATIONS

Abbreviations must be separated by semicolon and all the abbreviations used in the manuscript must be mentioned.

BODY TEXT

Respective Manuscript types must be written with the above-mentioned structure format. Any of the mentioned structure missing will be resent to the author for further modifications.

TABLES

GET Journal of Biosecurity and One Health requires Tables to be small and presented in Table format. Pie diagrams, Charts etc are considered as “Figures”. Tables presented in figure formats are not acceptable. Table legends must be mentioned above the Table. Tables must be provided at the end of the manuscript below Figures. Symbols and Abbreviations used in the tables must be presented below the Table.

*Note: Small table denotes that it should fit normally into the windows. Otherwise, it should be added as a supplementary table.

EQUATIONS AND FORMULAS

For mathematical symbols, Greek letters and other special characters, use normal text or Symbol font. Math Type is used only for formulae that cannot be produced using normal text or Symbol font.

UNITS

SI/ IU Units must be represented.

SUPPLEMENTARY INFORMATION

Supplementary information is usually provided as an essential background to the Article such as any example, large data sets, methods, calculations, etc. If the manuscript contains any Supplementary data the authors are asked to refer the supplementary data at an appropriate point in the main body of the manuscript. The supplementary information should not contain any figures. It may have Supplementary tables. They are published as raw dataset along with the manuscript.

CLINICAL IMAGES

Clinical images are the pictures that show the clinical findings of a particular case of the patient. The clinical pictures should include questions and answers that should educate or remind readers about an important clinical situation or event. The image should not just describe the picture; however, should be informative enough from a clinical teaching view.

FORMATTING GUIDELINES

The title should be less than five to eight words. The text describing a clinical question should be within 150 words. The images can be uploaded in .tiff, .jpg or .jpeg format. We recommend using high-quality images. Text should be in one double-spaced electronic document.

PATIENT CONSENT FORM

If the image/figure of the patient is identifiable then the patient consent form is required. Incase, the eyes are masked then the form is not mandatory.
